

EXPERIMENT – 14

CODE:

```
#include <reg51.h>
#include <stdio.h>

void main(void)
{
    SCON = 0x50;    // UART Mode 1, 8-bit, enable receiver
    TMOD = 0x20;    // Timer1 Mode 2 (8-bit auto reload)
    TH1 = 0xFD;     // 9600 baud rate (11.0592 MHz crystal)
    TR1 = 1;        // Start Timer1
    TI = 1;         // Set transmit interrupt flag

    while(1)
    {
        printf("Hello World!\n");
    }
}
```

OUTPUT:
